If you would like to share this pack with others, please do so by directing them to the post that features this pack. Please do not redistribute this printable pack via direct links or email.

This pack makes use of several online images and includes the appropriate permissions. Title graphics by MyGrafico via Goodness & Fun. Diorama images courtesy of the generous authors at OpenClipArt.org.

DIRECTIONS

Use the following images to make your own beach diorama! You can use a cardboard shoebox, a plastic box, or any container you like for the frame.

Some of the diorama images are designed to be glued flat onto the background, while others are designed to stand upright on the floor of the scene. However, you can use the images in any way you choose!

To add the upright scene images to your diorama, cut around the entire shape and then fold the dotted portion under to make the picture stand up. You may wish to use cardstock if you intend to reuse the images later.

Give the diorama a real beach feel by adding play sand and seashells to the bottom!
